OBJECTIVE

MCA student passionate about coding and problem-solving, seeking opportunities to apply technical skills in real-world development projects. Eager to learn and grow through hands-on experience and develop expertise in software development.

EDUCATION

Master of Computer Applications	Jun 2024-Apr 2026
Rajagiri College of Social Sciences Cochin Average SGPA: 8.73/10.0	
Bachelor of Computer Applications	Oct 2021-Mar 2024
Musaliar College of Arts and Science Pathanamthitta Programme CCPA: 8.81/10.0	

EXPERIENCE

Python Full-Stack Developer Trainee	Jan 2026-Present
GDK Techyspot LLP Cochin	

PROJECTS

Shopping Website: Developed a rental platform for fashion enthusiasts, incorporating roles for customers, administrators, and styling professionals. Used PHP and MySQL for backend management.

Hospital Management System: Implemented the scheduling of surgeries in a hospital management system. It was done using Java with Oracle JDBC for database connectivity and Swing for the GUI.

Smart Surveillance System: Built a real-time system using Python, OpenCV, MediaPipe and SMTP that detects human faces, triggers an alarm, captures and emails snapshots.

Language Learning Web App – Developed a web-based application using Laravel that allows users to register, log in, and manage enrollment in various language classes. Implemented secure session handling, form validation, and user-specific dashboards for viewing and joining classes.

TECHNICAL SKILLS

LANGUAGES : HTML, CSS, JS, PHP, CPP, Python, Java

FRAMEWORKS: Laravel

DATABASE MANAGEMENT SYSTEMS : MySQL, Oracle DB

TOOLS: PyCharm, Eclipse, Android Studio, n8n

CERTIFICATIONS

- Student Training Programme on PHP and MySQL by Spoken Tutorial Project, IIT Bombay (2021)
- Workshop on Database Administration by Inspired Software Development (2024)
- Advanced AI Program by TechySpot LLP, Kollam (2025)
